### *USING DIAL-UP NETWORKING (WIN 95) WITH THE STATE CALLING CARD*

**To set up a network connection by using Dial-Up Networking**
1. Double-click **My Computer**, and then double-click **Dial-Up Networking**.
2. Click on **Make New Connection**. Enter the name of connection that you desire. For this example I have named my connection " STATE CALLING CARD". I will refer to this connection throughout this document. Click **Next**.

3. Enter the Area Code and Telephone number of the computer or network you want to call.

4. You have successfully created a new Dial-up Networking connection call "STATE CALLING CARD". Click **Finish**. Next we will have to modify the dial properties of the connection you just created.
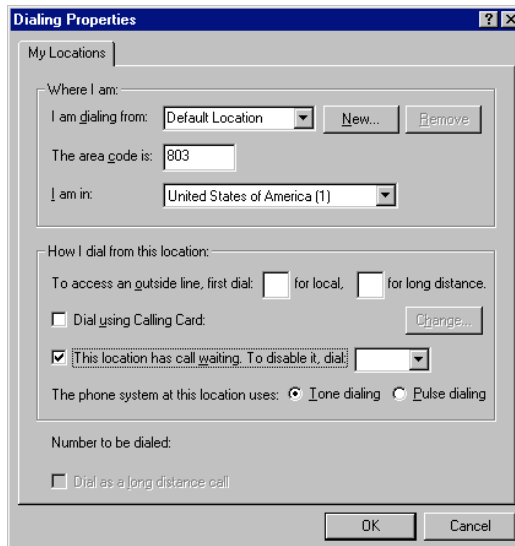

To Edit our new network connection.

   5.   Double-click **My Computer**, and then double-click **Dial-Up Networking**.
       Click on " **STATE CALLING CARD**". Click " **Dial Properties**"

6.   You can change the name of the location you will be calling from by Clicking "**New**". In this example I have used the default. After choosing location please Click the square marked " **Dial using Calling Card".**

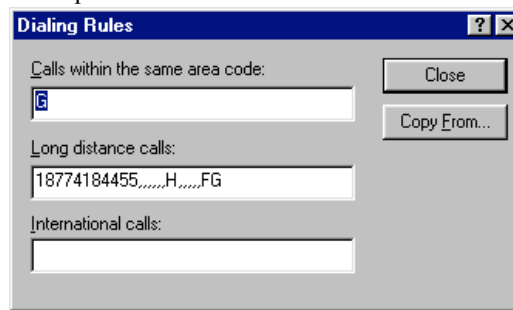

7. Click **"New"**

8.   Type in **" STATE CALLING CARD".** Click **OK**
