

USING NETWORK CONNECTION WIZARD (WIN 2000) WITH THE NEW NORTH CAROLINA CALLING CARD.

To set up a network connection using Windows 2000 Network Connection Wizard

- 1) Click **Start**, Go to **Settings**, Click on **Control Panel**. Click on **Network and Dial-up Connections**.
- 2) Click on **Make New Connection**.

- 3) Click **Next**, Select **Dial-up to private network**. Click **Next**. Click **Use Dialing Rules**. Enter the number you wish to call , Click **Next**.

- 4) Click **Only for myself**. Click **Next**.
- 5) You have successfully created a new Dial-up Networking Connection. Name the connection whatever you desire. Click on the **Add a shortcut to my desktop** if you wish to create a shortcut on your desktop. Click **Finish**.

- 6) Next we will have to modify the dial properties of the connection we just created. If your connection is currently displayed then click on **Dialing Rules**. If it is not displayed then click **Start**, Go to **Settings**, Go to **Network and Dial-up Connections**, Click on the name of the new connection you just created and then click **Dialing Rules**.

- 7) Click **Edit** for the location highlighted..

- 8) You can change the name of the location from which you will be calling. Specify County Region as below. Input Area Code you will be calling from. If you must dial a digit to access an outside line then input the digit in the **To access an outside line for long-distance calls, dial** box.

Edit Location

General | Area Code Rules | Calling Card

Location name: Network Connection

Specify the location from which you will be dialing.

Country/region: United States of America Area code: 919

OK Cancel Apply

9. Click on the Tab that says **Area Code Rules**. Input the Area Code of the computer connection you wish to call. Select the option for which prefixes within the area code you are calling or simply include all prefixes within the selected area code by selecting **Include all prefixes within this area code**. Under Rules please select the Dial 1 option and the option to include area code as illustrated below. Click **OK**

New Area Code Rule

This area code rule will only apply to calls made to the area code and prefix combination you specify below.

Area code you are calling: 919 Area code Prefix X-XXX-XXX-XXXX

Prefixes

Specify the prefixes to be used for this area code rule.

Include all the prefixes within this area code

Include only the prefixes in the list below:

Prefixes to include: [] [Add...] [Delete]

Rules

When dialing phone numbers that contain the prefixes above:

Dial: 1

Include the area code

OK Cancel

10. Click on the Tab that says Calling Card. Click **New** to add the new North Carolina Calling Card to the Card Types dialog box.

11. Type in the Name of the Calling Card in the space provided. Fill in your entire account number plus pin in the Account Number box. Do not fill in any information in the Personal Identification Number Box.

12. Click on the tab for Long Distance. Type in the North Carolina Calling Card access number as below.

The screenshot shows a dialog box titled "New Calling Card" with a blue header bar containing a help icon and a close button. Below the header are four tabs: "General", "Long Distance", "International", and "Local Calls". The "Long Distance" tab is selected. The main area contains a text box labeled "Access number for long distance calls:" with the value "18887532159" entered. Below this is a paragraph of instructions: "Use the buttons below to enter the dialing steps for making long-distance calls. Enter these steps in the exact order as they appear on your calling card." Underneath is a section titled "Calling card dialing steps:" with an empty list box. To the right of the list box are three buttons: "Move Up", "Move Down", and "Delete". Below the list box are two columns of buttons: "Access Number", "Account Number", "PIN", "Destination Number...", "Wait for Prompt...", and "Specify Digits...". At the bottom of the dialog are three buttons: "OK", "Cancel", and "Apply".

13. Set up your **Calling Card dialing Steps** as below. Click on the dialog button labeled **Access Number**. This will be the first step in the dialing process.

The screenshot shows a dialog box titled "Edit Calling Card" with a blue header bar containing a help icon and a close button. Below the header are four tabs: "General", "Long Distance", "International", and "Local Calls". The "Long Distance" tab is selected. The main area contains a text box labeled "Access number for long distance calls:" with the value "18887532159" entered and highlighted. Below this is a paragraph of instructions: "Use the buttons below to enter the dialing steps for making long-distance calls. Enter these steps in the exact order as they appear on your calling card." Underneath is a section titled "Calling card dialing steps:" with a list box containing four steps: "Dial the access number.", "Wait for 6 seconds.", "Dial the account number.", and "Wait for 2 seconds." Below the list box are three buttons: "Move Up", "Move Down", and "Delete". Below the list box are two columns of buttons: "Access Number", "Account Number", "PIN", "Destination Number...", "Wait for Prompt...", and "Specify Digits...". At the bottom of the dialog are three buttons: "OK", "Cancel", and "Apply".

14. Click on the Dialog button **Wait for Prompt**, a separate dialog box will appear with three options. Please select the **Wait for a specific length of time** option and input **6** for the value in the second's table. Click **OK**

15. Click on the Dialog button **Account Number**. Click on the dialog button **Wait for Prompt**. Please select the **Wait for a specific length of time** option and input **2** for the value in the second's table. Click **OK**.

16. Click on the dialog button **Destination Number**. A separate dialog box will appear. Please make sure the **Dial the Area Code** Box is selected. Click **OK**.

17. Your New Calling Card account setup should look like the example below. Click **OK**.
